Builds mission plan per Desktop

Procedure

Objectives:

-to establish and document a NASA KSC Mission Plan review, comment and approval process.

Approval:______Stephen M. Francois
Program Manager
ELV and Payload Carriers Programs

POC:_____ Jack Wolfe

Chief, ELV Launch Services Mission Management Office

Note 1: The Mission Plan is one of several items typically presented to the spacecraft customer at the first kickoff meeting after launch vehicle Authority to Proceed (ATP)

Note 2: The MIT includes the MIM, LSIM, IE and LSM The MIM is responsible for the contents of the Mission Plan

<u>Note 3:</u> After the Mission Plan is released, updates to mission-specific data in the mission plan will only be available via the Customer Monthly Package

Note 4: Template comments provided to the Knowledge Manager will be compiled on a 6-8 week basis and provided to the Mission Plan Steering Committee for consideration. Changes to the Mission Plan template are not required to be incorporated into previously released Mission Plans

Consolidates comments to the template (See Note 4)
